

ABOUT US

We would like to introduce our company California Arbor Care. We are an established and well experienced tree service company in Southern California, with over 30 years of experience. On staff, we have *International Society of Arboriculture Certified Arborists* and *Certified Tree Workers*. We proudly trim trees using the tree trimming specifications of the *International Society of Arboriculture*. Over the years, we have built a foundation of professionalism, integrity and the desire to improve and enhance your surroundings to their utmost, because we believe a well maintained landscape is an integral part of your property's value and beauty.

We provide service for commercial, industrial, and residential areas. Our goal and duty to our customers is "Enhancing Tree Health and Appearance". As part of our high standards of quality service, we are fully insured, and licensed by the State of California.

WHAT IS A CERTIFIED ARBORIST?

An arborist by definition is an individual who is trained in the art and science of planting, caring for, and maintaining individual trees. Certification provides a measurable assessment of an individual's knowledge and competence required to provide proper tree care. Certified Arborists are individuals who have achieved a level of knowledge in the art and science of tree care through experience and by passing a comprehensive examination developed by some of the nation's leading experts on tree care. Certified Arborist must also continue their education to maintain their certification. Therefore, they are more likely to be up to date on the latest techniques in arboriculture.

WHAT IS A CERTIFIED TREE WORKER?

A Tree Worker is an individual who is trained in climbing, pruning, safety, and has the ability to identify conditions that may alter the health of a tree. Certification provides a measurable assessment of an individual's knowledge and competence required to provide proper tree care. Certified Tree Workers are individuals who have achieved a level of knowledge in climbing, pruning, safety, and has the ability to identify conditions that may alter the health of a tree through experience and passing a comprehensive examination. Certified Tree Workers must also continue their education to maintain their certification. Therefore, they are more likely to be up to date on the latest techniques of arboriculture.
